

Form Inliner™

NITTEL Form Inliners™ are the ideal solution for lining your drum or pail. The liners are available in a range of materials.

NITTEL Form Inliners™ fit each outer container like a second skin without any folds or pockets which make the liner ideal for use with mixers, pumps and follower plates, for example. Form Inliners™ have a contoured lip that fits over the rim of the container preventing leakage between the liner and the container wall. They are particularly suitable for adhesives, colours, cosmetics, silicone and food products.

Use:

Pails: 5 to 40 litres

Plastic drums: 30, 60, 120 and 150 litres

Steel drums: 50 to 225 litres

Versions:

Open

Lids available

Material:

LDPE, also anti static version

PP, also anti static version

Application Examples:

NITTEL Form Inliners™ - Ideal for products which are stirred or pumped out (e.g. paints, chemicals and cosmetics) and for use with follower plates.

- Allows maximum product recovery.
- Simple to fit to maintain productivity levels.
- Protects valuable product from contamination.
- Can be used in new, standard, reconditioned and ISO drums.
- Makes single trip drums genuinely multi trip.
- UN approved; EU & USA food approved.
